(ii) Computed by:

1. Multiplying the total square footage of the nonwater-dependent project by a fraction, the denominator of which is the total square footage of the land area of the real property to which the nonwater-dependent project is attached, and the numerator of which is the assessed land value of the real property to which the nonwater-dependent project is attached; and

2. Multiplying the rate calculated under item 1 of this item by a percentage considered appropriate by the Board not to exceed 100%.

(3) In determining the appropriate percentage under paragraph (2)(ii)2 of this subsection, the Board may consider:

(i) The extent to which the nonwater-dependent project is used on a seasonal or year-round basis;

(ii) The extent of the economic impact of the nonwater-dependent project on the local jurisdiction;

(vi) Any real property lease rates for the area for a commercial activity similar to the licensee's or any real property appraisals obtained by the licensee; and

(vii) Any other factor that the Board considers relevant.

(4) The Board may periodically recalculate the annual compensation rate to reflect:

(i) Any change to the data provided by the State Department of Assessments and Taxation under paragraph (2)(i) of this subsection; or

(ii) A change in any factor the Board considers under paragraph (3) of this subsection.

(d) Monetary compensation received by the State in conjunction with a wetlands license may not be applied to the State Annuity Bond Fund Account.
